-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Hackleman (US Patent 5,734,394).

- Claim 1:

Hackleman discloses "a printhead assembly for an inkjet printer, the printhead assembly comprising:

a support member (24 or 26 in figure 2) for mounting the printhead assembly within an inkjet printer, and, a plurality of printhead modules (30 in figure 2 and 6) mounted to the support member;

the support member has an overall coefficient of thermal expansion such that it changes its dimensions between its production temperature, when the printhead is assembled (this limitation is referring to the process of manufacturing the assembly and thus is given no patentability weight), and an operation temperature reached during normal operation of the printer (column 5, lines 13-17; column 8, line 60 – column 9, line 7); wherein,

the printhead modules are mounted to the support member at the production temperature such that they align when the printhead assembly is at the operating temperature (column 6, line 66 – column 7, line 3)."

- Claim 7:

Hackleman discloses a printhead assembly "wherein the printhead is a pagewidth printhead for printing across the width of a page simultaneously (column 4, lines 53-57)."

Allowable Subject Matter

3. Claims 2-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The following is a statement of reasons for the indication of allowable subject matter:

- Claim 2:

Prior art does not disclose or suggest either alone or combined the claimed "wherein the support member is a beam and the printhead modules include MEMS manufactured chips having at least one fiducial on each;

wherein, the fiducials are used to misalign the printhead modules by a distance calculated from:

i) the difference between the coefficient of thermal expansion of the beam and the printhead chips;

ii) the spacing of the printhead chips along the beam; and,

iii) the difference between the production temperature and the operating temperature.”

5. Claims 3 - 6 are considered allowable subject matter since they depend on allowable claims.

Response to Arguments

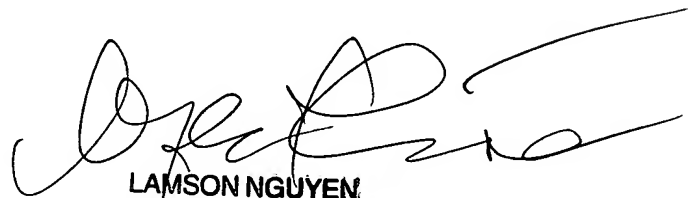

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jannelle M. Lebron whose telephone number is (571) 272-2729. The examiner can normally be reached on Monday thru Friday 8:30am-5:00pm.
